83C CARMINAT SOFTWARE UPGRADE

- Engine: XXX
- Gearbox: XXX

Basic manual:  
Technical Note 3543A

How to download the software upgrade with the "Language CD-Nav5 All Versions".

Note:  
The software upgrade only applies to "high-end" Carminat navigation systems.

"The repair methods given by the manufacturer in this document are based on the technical specifications current when it was prepared.

The methods may be modified as a result of changes introduced by the manufacturer in the production of the various component units and accessories from which his vehicles are constructed."

Copying or translating, in part or in full, of this document or use of the service part reference numbering system is forbidden without the prior written authority of Renault.

Upgrading the system software takes about 5 minutes.

If the CD-ROM is ejected during installation, carefully clean it, then reinsert it into the reader. The system will automatically restart.

- 1 Switch on the ignition **without starting the engine**.

### WARNING

Never turn off the ignition during this procedure because the navigation system might become unusable.

- 2 Select **"OK"** on the Navigation system welcome screen.
- 3 Select **"Navigation"** from the main menu.
- 4 Eject the map CD-ROM by pressing the Eject button on the front of the CD-ROM reader. See the **"Navigation Assistance"** Technical Note for the location of the parts.
- 5 Insert the CD-ROM labelled **"Languages CD - Nav5 All Versions"**.
- 6 Once the CD-ROM has been detected (which takes a few seconds), the system asks: **"Install software?"**.
- 7 Select **"Yes"** if the current version displayed and new version differ.

### Note:

If both versions are identical, select **"No"**: the system already has the new software. The system then automatically ejects the **"Languages CD - Nav5 All Versions"**. Insert the map CD-ROM into the reader.

- 8 A wait message is then displayed for about 15 seconds before the screen goes black.
- 9 After about 10 seconds, the system indicates it will update the software (**"The installation program will update your system"**).

- 10 Wait for about 2 minutes. A **progress bar** appears. It enables you to track the progress of the software upgrade.

### Note:

The **"progress bar"** may remain at 100% for a few seconds. This is normal system operation.

- 11 Once the upgrade is finished, the system automatically ejects the **"Languages CD - Nav5 All Versions"**.
- 12 The system then reboots with a message: **"The system will reboot now"**.
- 13 The screen goes black and the RENAULT logo appears.
- 14 Next the system displays the **"Navigation"** menu.
- 15 The system upgrade is now completed. Insert the map CD-ROM into the reader.

### Note:

The **"Languages CD - Nav5 All Versions"** must be used instead of the old one to install new languages into the system.
